Experiences

Work-study, Web Developer at Hoplunch
SEP 2023 - TODAY

- Significant contribution to the development and improvement of the Hoplunch website, using the Nuxt framework.
- Active participation in team meetings, contributing ideas and suggestions to improve the site's UI/UX.
- Added back-office functionality using the Symfony PHP framework.
- Developed end-to-end tests with Playwright to guarantee the integrity of the application at each deployment.

Junior Web Developer at Bradley : The Brand Agency
AUG 2023 - SEP 2023

- Created several working WordPress sites with custom themes for well-known Irish companies, including Mcorm and Natural Stockcare, as well as international companies such as Indorama Ventures.
- Collaborated with English-speaking designers to translate their vision into responsive web interfaces for all devices.
- Led website development from concept to launch, demonstrating expertise in independent web development.

Internship, Web Developer Caisse d'Epargne Grand-Est
JAN 2022 - APR 2022

- Development and production of in-house applications in PHP/JQuery/Oracle.

Internship, Web integrator at Agile Business
AVR 2020 - JULY 2022

- Getting to grips with the WordPress CMS using the WPBakery editor to create responsive websites for companies such as Dormae.
- Creation of a custom Wordpress plugin to automate connection to an ERP system.
